

# Oakwood Junior School Online Safety Policy

Written by:	Mrs Atwal
Date Approved:	04/03/25
Date of Review:	March 2026
Updated	
Version:	1.2

***'Good behaviour is a necessary condition for effective teaching and learning to take place and an important outcome of education which society rightly expects.'***

(Education Observed D.E.S)

We as a school consider our equality duties under the Equality act 2010. The general duties are to:

- Eliminate discrimination
- Advance equality of opportunity
- Foster good relations

This policy understands the principle of the Act and the work needed to ensure that those with protected characteristics are not discriminated against and are given equality of opportunity.

23. [Monitoring and review](#)

### **Appendices**

- A. Online harms and risks – curriculum coverage
- B. Acceptable Use agreement – pupils
- C. Acceptable Use agreement – staff, governors, volunteers

## Statement of Intent

Oakwood Junior School understands that using online services is an important aspect of raising educational standards, promoting pupil achievement, and enhancing teaching and learning. The use of online services is embedded throughout the school; therefore, there are a number of controls in place to ensure the safety of pupils and staff.

The breadth of issues classified within online safety is considerable, but they can be categorised into four areas of risk:

- **Content:** Being exposed to illegal, inappropriate or harmful material, e.g. pornography, fake news, self-harm and suicide, and discriminatory or extremist views.
- **Contact:** Being subjected to harmful online interaction with other users, e.g. peer pressure, commercial advertising, and adults posing as children or young adults with the intention to groom or exploit children.
- **Conduct:** Personal online behaviour that increases the likelihood of, or causes, harm, e.g. sending and receiving explicit messages, and cyberbullying.
- **Commerce:** Risks such as online gambling, inappropriate advertising, phishing and/or financial scams.

The measures implemented to protect pupils and staff revolve around these areas of risk. Our school has created this policy with the aim of ensuring appropriate and safe use of the internet and other digital technology devices by all pupils and staff.

## 1. Legal Framework

This policy has due regard to all relevant legislation and guidance including, but not limited to, the following:

- Voyeurism (Offences) Act 2019
- The UK General Data Protection Regulation (UK GDPR)
- Data Protection Act 2018
- DfE (2021) 'Harmful online challenges and online hoaxes'
- DfE (2024) 'Keeping children safe in education 2024'
- DfE (2019) 'Teaching online safety in school'
- DfE (2018) 'Searching, screening and confiscation'
- Department for Digital, Culture, Media and Sport and UK Council for Internet Safety (2020) 'Sharing nudes and semi-nudes: advice for education settings working with children and young people'
- UK Council for Child Internet Safety (2020) 'Education for a Connected World – 2020 edition'
- National Cyber Security Centre (2018) 'Small Business Guide: Cyber Security'

This policy operates in conjunction with a range of other policies including the following:

- Allegations of Abuse Against Staff Policy
- Acceptable Use Agreement
- Child Protection and Safeguarding Policy
- PSHE Policy / RSE and Health Education Policy

## 2. Roles and responsibilities

The Governing Board is responsible for:

- Ensuring that this policy is effective and complies with relevant laws and statutory guidance.
- Ensuring the DSL's remit covers online safety.
- Reviewing this policy on an annual basis.
- Ensuring their own knowledge of online safety issues is up-to-date.
- Ensuring all staff undergo safeguarding and child protection training, including online safety, at induction.
- Ensuring that there are appropriate filtering and monitoring systems in place.
- Ensuring that all relevant school policies have an effective approach to planning for, and responding to, online challenges and hoaxes embedded within them.

The Head Teacher is responsible for:

- Ensuring that online safety is a running and interrelated theme throughout the school's policies and procedures, including in those related to the curriculum, teacher training and safeguarding.
- Supporting the DSL and the deputy DSL by ensuring they have enough time and resources to carry out their responsibilities in relation to online safety.
- Ensuring staff receive regular, up-to-date and appropriate online safety training and information as part of their induction and safeguarding training.
- Ensuring online safety practices are audited and evaluated.
- Supporting staff to ensure that online safety is embedded throughout the curriculum so that all pupils can develop an appropriate understanding of online safety.
- Working with the DSL and ICT technicians to conduct termly light-touch reviews of this policy.
- Working with the DSL and governing board to update this policy on an annual basis.

The DSL is responsible for:

- Taking the lead responsibility for online safety in the school.
- Acting as the named point of contact within the school on all online safeguarding issues.
- Undertaking training so they understand the risks associated with online safety and can recognise additional risks that pupils with SEND face online.
- Liaising with relevant members of staff on online safety matters, e.g. the SENCO and ICT technicians.
- Ensuring online safety is recognised as part of the school's safeguarding responsibilities and that a coordinated approach is implemented.
- Ensuring safeguarding is considered in the school's approach to remote learning.
- Ensuring appropriate referrals are made to external agencies, as required.
- Working closely with the police during police investigations.
- Keeping up-to-date with current research, legislation and online trends.
- Coordinating the school's participation in local and national online safety events, e.g. Safer Internet Day.
- Establishing a procedure for reporting online safety incidents and inappropriate internet use, both by pupils and staff.
- Ensuring all members of the school community understand the reporting procedure.
- Maintaining records of reported online safety concerns as well as the actions taken in response to concerns.
- Monitoring online safety incidents to identify trends and any gaps in the school's provision, and using this data to update the school's procedures.
- Reporting to the governing board about online safety on a termly basis.

- Working with the Head Teacher and ICT technicians to conduct termly light-touch reviews of this policy.
- Working with the Head Teacher and governing board to update this policy on an annual basis.

ICT technicians are responsible for:

- Providing technical support in the development and implementation of the school's online safety policies and procedures.
- Implementing appropriate security measures as directed by the Head Teacher.
- Ensuring that the school's filtering and monitoring systems are updated as appropriate.
- Working with the DSL and Head Teacher to conduct termly light-touch reviews of this policy.
- All staff members are responsible for:
  - Taking responsibility for the security of ICT systems and electronic data they use or have access to.
  - Modelling good online behaviours.
  - Maintaining a professional level of conduct in their personal use of technology.
  - Having an awareness of online safety issues.
  - Ensuring they are familiar with, and understand, the indicators that pupils may be unsafe online.
  - Reporting concerns in line with the school's reporting procedure.
  - Where relevant to their role, ensuring online safety is embedded in their teaching of the curriculum.

Pupils are responsible for:

- Adhering to the Acceptable Use Agreement and other relevant policies.
- Seeking help from school staff if they are concerned about something they or a peer have experienced online.
- Reporting online safety incidents and concerns in line with the procedures within this policy.

### **3. Managing online safety**

All staff will be aware that technology is a significant component in many safeguarding and wellbeing issues affecting young people, particularly owing to the rise of social media and the increased prevalence of children using the internet.

The DSL has overall responsibility for the school's approach to online safety, with support from deputies and the Head Teacher where appropriate, and will ensure that there are strong processes in place to handle any concerns about pupils' safety online. The DSL should liaise with the police or children's social care services for support responding to harmful online sexual behaviour.

The importance of online safety is integrated across all school operations in the following ways:

- Staff and governors receive regular training
- Staff receive regular email updates regarding online safety information and any changes to online safety guidance or legislation
- Online safety is integrated into learning throughout the curriculum using Project EVOLVE (Education for a Connected World resources), the PSHE SCARF scheme and bespoke events delivered by an online safety expert.
- Online safety expert invited in to do workshops and information sessions

### **Handling online safety concerns**

Any disclosures made by pupils to staff members about online abuse, harassment or exploitation, whether they are the victim or disclosing on behalf of another child, will be handled in line with the Child Protection and Safeguarding Policy.

Staff will be aware that pupils may not feel ready or know how to tell someone about abuse they are experiencing, due to feeling embarrassed, humiliated, or threatened. Staff will be aware and recognise the importance of the presence and scale of online abuse or harassment, by considering that just because it is not being reported, does not mean it is not happening.

Staff will be aware that harmful online sexual behaviour can progress on a continuum, and appropriate and early intervention can prevent abusive behaviour in the future. Staff will also acknowledge that pupils displaying this type of behaviour are often victims of abuse themselves and should be suitably supported.

The victim of online harmful sexual behaviour may ask for no one to be told about the abuse. The DSL will consider whether sharing details of the abuse would put the victim in a more harmful position, or whether it is necessary in order to protect them from further harm. Ultimately the DSL will balance the victim's wishes against their duty to protect the victim and other young people. The DSL and other appropriate staff members will meet with the victim's parents to discuss the safeguarding measures that are being put in place to support their child and how the report will progress.

Confidentiality will not be promised, and information may be still shared lawfully, for example, if the DSL decides that there is a legal basis under UK GDPR such as the public task basis whereby it is in the public interest to share the information. If the decision is made to report abuse to children's social care or the police against the victim's wishes, this must be handled extremely carefully and appropriate support provided to the victim.

Concerns regarding a staff member's online behaviour are reported to the Head Teacher, who decides on the best course of action in line with the relevant policies, e.g. the Staff Code of Conduct, Allegations of Abuse Against Staff Policy, and Disciplinary Policy and Procedures. If the concern is about the Head Teacher, it is reported to the Chair of Governors.

Concerns regarding a pupil's online behaviour are reported to the DSL, who investigates concerns with relevant staff members, e.g. the Head Teacher and ICT technicians, and manages concerns in accordance with relevant policies depending on their nature, e.g. the Behaviour Policy and Child Protection and Safeguarding Policy.

Where there is a concern that illegal activity has taken place, the Head Teacher contacts the police. The school avoids unnecessarily criminalising pupils, e.g. calling the police, where criminal behaviour is thought to be inadvertent and as a result of ignorance or normal developmental curiosity, e.g. a pupil has taken and distributed indecent imagery of themselves. The DSL will decide in which cases this response is appropriate and will manage such cases in line with the Child Protection and Safeguarding Policy. All online safety incidents and the school's response are recorded by the DSL.

#### **4. Cyberbullying**

Cyberbullying can include, but is not limited to, the following:

- Threatening, intimidating or upsetting text messages
- Threatening or embarrassing pictures and video clips sent via mobile phone cameras
- Silent or abusive phone calls or using the victim's phone to harass others, to make them think the victim is responsible

- Threatening or bullying emails, possibly sent using a pseudonym or someone else's name
- Unpleasant or defamatory information posted to blogs, personal websites and social networking sites, e.g. Facebook
- Abuse between young people in intimate relationships online i.e. teenage relationship abuse
- Discriminatory bullying online i.e. homophobia, racism, misogyny/misandry.

The school will be aware that certain pupils can be more at risk of abuse and/or bullying online, such as LGBTQ+ pupils and pupils with SEND.

Cyberbullying against pupils or staff is not tolerated under any circumstances. Incidents of cyberbullying are dealt with quickly and effectively wherever they occur in line with the Anti-bullying Policy.

## **5. Child-on-child sexual abuse and harassment**

Pupils may also use the internet and technology as a vehicle for sexual abuse and harassment. Staff will understand that this abuse can occur both in and outside of school, off and online, and will remain aware that pupils are less likely to report concerning online sexual behaviours, particularly if they are using websites that they know adults will consider to be inappropriate for their age.

The following are examples of online harmful sexual behaviour of which staff will be expected to be aware:

- Threatening, facilitating or encouraging sexual violence
- Upskirting, i.e. taking a picture underneath a person's clothing without consent and with the intention of viewing their genitals, breasts or buttocks
- Unwanted and unsolicited sexual comments and messages
- Consensual or non-consensual sharing of sexualised imagery

All staff will be aware of and promote a zero-tolerance approach to sexually harassing or abusive behaviour, and any attempts to pass such behaviour off as trivial or harmless. Staff will be aware that allowing such behaviour could lead to a school culture that normalises abuse and leads to pupils becoming less likely to report such conduct.

Staff will be aware that creating, possessing, and distributing indecent imagery of other children, i.e. individuals under the age of 18, is a criminal offence, even where the imagery is created, possessed, and distributed with the permission of the child depicted, or by the child themselves.

The school responds to all concerns regarding online child-on-child sexual abuse and harassment, regardless of whether the incident took place on the school premises or using school-owned equipment. Concerns regarding online child-on-child abuse are reported to the DSL, who will investigate the matter in line with the Child-on-child Abuse Policy and the Child Protection and Safeguarding Policy.

## **6. Grooming and exploitation**

Grooming is defined as the situation whereby an adult builds a relationship, trust and emotional connection with a child with the intention of manipulating, exploiting and/or abusing them. Staff will be aware that grooming often takes place online and that pupils who are being groomed are commonly unlikely to report this behaviour for many reasons, including the following:

- The pupil believes they are talking to another child, when they are actually talking to an adult masquerading as someone younger with the intention of gaining their trust to abuse them.

- The pupil does not want to admit to talking to someone they met on the internet for fear of judgement, feeling embarrassed, or a lack of understanding from their peers or adults in their life.
- The pupil may have been manipulated into feeling a sense of dependency on their groomer due to the groomer's attempts to isolate them from friends and family.
- Talking to someone secretly over the internet may make the pupil feel 'special', particularly if the person they are talking to is older.
- The pupil may have been manipulated into feeling a strong bond with their groomer and may have feelings of loyalty, admiration, or love, as well as fear, distress and confusion.

Due to the fact pupils are less likely to report grooming than other online offences, it is particularly important that staff understand the indicators of this type of abuse. The DSL will ensure that online safety training covers online abuse, the importance of looking for signs of grooming, and what the signs of online grooming are, including:

- Being secretive about how they are spending their time.
- Having an older boyfriend or girlfriend, usually one that does not attend the school and whom their close friends have not met.
- Having money or new possessions, e.g. clothes and technological devices, that they cannot or will not explain.

### **Child sexual exploitation (CSE) and child criminal exploitation (CCE)**

Although CSE often involves physical sexual abuse or violence, online elements may be prevalent, e.g. sexual coercion and encouraging children to behave in sexually inappropriate ways through the internet. In some cases, a pupil may be groomed online to become involved in a wider network of exploitation, e.g. the production of child pornography or forced child prostitution and sexual trafficking.

CCE is a form of exploitation in which children are forced or manipulated into committing crimes for the benefit of their abuser, e.g. drug transporting, shoplifting and serious violence. While these crimes often take place in person, it is increasingly common for children to be groomed and manipulated into participating through the internet.

Where staff have any concerns about pupils with relation to CSE or CCE, they will bring these concerns to the DSL without delay, who will manage the situation in line with the Child Protection and Safeguarding Policy.

### **Radicalisation**

Radicalisation is the process by which a person comes to support terrorism and extremist ideologies associated with terrorist groups. This process can occur through direct recruitment, e.g. individuals in extremist groups identifying, targeting and contacting young people with the intention of involving them in terrorist activity, or by exposure to violent ideological propaganda. Children who are targets for radicalisation are likely to be groomed by extremists online to the extent that they believe the extremist has their best interests at heart, making them more likely to adopt the same radical ideology.

Staff members will be aware of the factors which can place certain pupils at increased vulnerability to radicalisation, as outlined in the Prevent Duty Policy. Staff will be expected to exercise vigilance towards any pupils displaying indicators that they have been, or are being, radicalised.

Where staff have a concern about a pupil relating to radicalisation, they will report this to the DSL without delay, who will handle the situation in line with the Prevent Duty Policy.

## 7. Mental health

The internet, particularly social media, can be the root cause of a number of mental health issues in pupils, e.g. low self-esteem and suicidal ideation.

Staff will be aware that online activity both in and outside of school can have a substantial impact on a pupil's mental state, both positively and negatively. The DSL will ensure that training is available to help ensure that staff members understand popular social media sites and terminology, the ways in which social media and the internet in general can impact mental health, and the indicators that a pupil is suffering from challenges in their mental health. Concerns about the mental health of a pupil will be dealt with in line with the Mental Health & Wellbeing Policy.

## 8. Online hoaxes and harmful online challenges

For the purposes of this policy, an **“online hoax”** is defined as a deliberate lie designed to seem truthful, normally one that is intended to scaremonger or to distress individuals who come across it, spread on online social media platforms.

For the purposes of this policy, **“harmful online challenges”** refers to challenges that are targeted at young people and generally involve users recording themselves participating in an online challenge, distributing the video through social media channels and daring others to do the same. Although many online challenges are harmless, an online challenge becomes harmful when it could potentially put the participant at risk of harm, either directly as a result of partaking in the challenge itself or indirectly as a result of the distribution of the video online – the latter will usually depend on the age of the pupil and the way in which they are depicted in the video.

Where staff suspect there may be a harmful online challenge or online hoax circulating amongst pupils in the school, they will report this to the DSL immediately.

The DSL will conduct a case-by-case assessment for any harmful online content brought to their attention, establishing the scale and nature of the possible risk to pupils, and whether the risk is one that is localised to the school or the local area, or whether it extends more widely across the country.

Where the harmful content is prevalent mainly in the local area, the DSL will consult with the LA about whether quick local action can prevent the hoax or challenge from spreading more widely.

Prior to deciding how to respond to a harmful online challenge or hoax, the DSL and the Head Teacher will decide whether each proposed response is:

- In line with any advice received from a known, reliable source, e.g. the UK Safer Internet Centre, when fact-checking the risk of online challenges or hoaxes.
- Careful to avoid needlessly scaring or distressing pupils.
- Not inadvertently encouraging pupils to view the hoax or challenge where they would not have otherwise come across it, e.g. where content is explained to younger pupils but is almost exclusively being shared amongst older pupils.
- Proportional to the actual or perceived risk.
- Helpful to the pupils who are, or are perceived to be, at risk.
- Appropriate for the relevant pupils' age and developmental stage.
- Supportive.
- In line with the Child Protection and Safeguarding Policy.

Where the DSL's assessment finds an online challenge to be putting pupils at risk of harm, e.g. it encourages children to participate in age-inappropriate activities that could increase safeguarding risks or

become a child protection concern, they will ensure that the challenge is directly addressed to the relevant pupils, e.g. those within a particular age range that is directly affected or even to individual children at risk where appropriate.

## **9. Cyber-crime**

Cyber-crime is criminal activity committed using computers and/or the internet. There are two key categories of cyber-crime:

- **Cyber-enabled** – these crimes can be carried out offline; however, are made easier and can be conducted at higher scales and speeds online, e.g. fraud, purchasing and selling of illegal drugs, and sexual abuse and exploitation.
- **Cyber-dependent** – these crimes can only be carried out online or by using a computer, e.g. making, supplying or obtaining malware, illegal hacking, and ‘booting’, which means overwhelming a network, computer or website with internet traffic to render it unavailable.

The school will factor into its approach to online safety the risk that pupils with a particular affinity or skill in technology may become involved, whether deliberately or inadvertently, in cyber-crime. Where there are any concerns about a pupil’s use of technology and their intentions with regard to using their skill and affinity towards it, the DSL will consider a referral to the Cyber Choices programme, which aims to intervene where children are at risk of committing cyber-crime and divert them to a more positive use of their skills and interests.

The DSL and Head Teacher will ensure that pupils are taught, throughout the curriculum, how to use technology safely, responsibly and lawfully, and will ensure that pupils cannot access sites or areas of the internet that may encourage them to stray from lawful use of technology, e.g. the ‘dark web’, on school-owned devices or on school networks through the use of appropriate firewalls.

## **10. Online safety training for staff**

The DSL ensures that all safeguarding training given to staff includes elements of online safety, including how the internet can facilitate abuse and exploitation. All staff will be made aware that pupils are at risk of abuse, by their peers and by adults, online as well as in person, and that, often, abuse will take place concurrently via online channels and in daily life.

## **11. Online safety and the curriculum**

Online safety is embedded throughout the curriculum; however, it is particularly addressed in the following subjects:

- RSE
- Computing
- PSHE

Online safety teaching is always appropriate to pupils’ ages and developmental stages.

Pupils are taught the underpinning knowledge and behaviours that can help them to navigate the online world safely and confidently regardless of the device, platform or app they are using. The underpinning knowledge and behaviours pupils learn through the curriculum include the following:

- How to evaluate what they see online
- How to recognise techniques used for persuasion
- What healthy and respectful relationships, including friendships, look like
- Body confidence and self-esteem

- Consent, e.g. with relation to the sharing of indecent imagery or online coercion to perform sexual acts
- Acceptable and unacceptable online behaviour
- How to identify when something is deliberately deceitful or harmful
- How to recognise when something they are being asked to do puts them at risk or is age inappropriate

The online risks pupils may face online are always considered when developing the curriculum. The risks that are considered and how they are covered in the curriculum can be found in [Appendix A](#) of this policy.

The DSL is involved with the development of the school's online safety curriculum. Pupils will be consulted on the online safety curriculum, where appropriate, due to their unique knowledge of the kinds of websites they and their peers frequent and the kinds of behaviours in which they engage online.

The school recognises that, while any pupil can be vulnerable online, there are some pupils who may be more susceptible to online harm or have less support from family and friends in staying safe online, e.g. pupils with SEND and LAC. Relevant members of staff, e.g. the SENCO and designated teacher for LAC, work together to ensure the curriculum is tailored so these pupils receive the information and support they need.

The school will also endeavour to take a more personalised or contextualised approach to teaching about online safety for more susceptible children, and in response to instances of harmful online behaviour from pupils.

Class teachers review external resources prior to using them for the online safety curriculum, to ensure they are appropriate for the cohort of pupils.

External visitors may be invited into school to help with the delivery of certain aspects of the online safety curriculum. The Head Teacher and DSL decide when it is appropriate to invite external groups into school and ensure the visitors selected are appropriate.

Before conducting a lesson or activity on online safety, the class teacher and DSL consider the topic that is being covered and the potential that pupils in the class have suffered or may be suffering from online abuse or harm in this way. The DSL advises the staff member on how to best support any pupil who may be especially impacted by a lesson or activity. Lessons and activities are planned carefully so they do not draw attention to a pupil who is being or has been abused or harmed online, to avoid publicising the abuse.

If a staff member is concerned about anything pupils raise during online safety lessons and activities, they will make a report in line with the Child Protection and Safeguarding Policy.

If a pupil makes a disclosure to a member of staff regarding online abuse following a lesson or activity, the staff member will follow the reporting procedure outlined in the Child Protection and Safeguarding Policy.

## **12. Use of technology in the classroom**

A wide range of technology is used during lessons, including the following:

- Computers
- Laptops
- Tablets
- Email

Prior to using any websites, tools, apps or other online platforms in the classroom, or recommending that pupils use these platforms at home, the class teacher always reviews and evaluates the resource. Class teachers ensure that any internet-derived materials are used in line with copyright law. Pupils are supervised when using online materials during lesson time – this supervision is suitable to their age and ability.

### **13. Use of smart technology**

While the school recognises that the use of smart technology can have educational benefits, there are also a variety of associated risks which the school will ensure it manages.

Staff will use all smart technology and personal technology in line with the school's Acceptable Use Policy Policy.

Pupils will not be permitted to use personal smart devices or any other personal technology whilst at school.

Where there is a significant problem with the misuse of smart technology among pupils out of school, the school will work proactively with parents/carers to support the pupils in understanding the impact of their behaviours.

The school will hold assemblies, where appropriate, which address any specific concerns related to the misuse of smart technology and outline the importance of using smart technology in an appropriate manner.

The school will seek to ensure that it is kept up to date with the latest devices, platforms, apps, trends and related threats.

### **14. Educating parents**

The school works in partnership with parents to ensure pupils stay safe online at school and at home. Parents are provided with information about the school's approach to online safety and their role in protecting their children.

Parents will be made aware of the various ways in which their children may be at risk online, including, but not limited to:

- Child sexual abuse, including grooming.
- Exposure to radicalising content.
- Sharing of indecent imagery of pupils, e.g. sexting.
- Cyberbullying.
- Exposure to age-inappropriate content, e.g. pornography.
- Exposure to harmful content, e.g. content that encourages self-destructive behaviour.

Parents will be informed of the ways in which they can prevent their child from accessing harmful content at home, e.g. by implementing parental controls to block age-inappropriate content.

### **15. Internet access**

Pupils, staff and other members of the school community are only granted access to the school's internet network once they have read and signed the Acceptable Use Agreement.

All members of the school community use the school's internet network, instead of 3G, 4G and 5G networks, as the network has appropriate filtering and monitoring to ensure individuals are using the internet appropriately.

## **Filtering and monitoring online activity**

The governing board ensures the school's ICT network has appropriate filters and monitoring systems in place. The governing board ensures 'over blocking' does not lead to unreasonable restrictions as to what pupils can be taught with regards to online teaching and safeguarding.

The head teacher and ICT technicians undertake a risk assessment to determine what filtering and monitoring systems are required. The filtering and monitoring systems the school implements are appropriate to pupils' ages, the number of pupils using the network, how often pupils access the network, and the proportionality of costs compared to the risks. Head teacher receives weekly reports and checks with staff and ICT technician if changes need to be made. ICT checks on the filtering and monitoring systems to ensure they are effective and appropriate.

If a pupil has deliberately breached the filtering system, they will be disciplined in line with the Behaviour Policy. If a member of staff has deliberately breached the filtering system, they will be disciplined in line with the Disciplinary Policy and Procedure.

If material that is believed to be illegal is accessed, inadvertently or deliberately, this material will be reported to the appropriate agency immediately, e.g. the Internet Watch Foundation (IWF), CEOP and/or the police.

The school's network and school-owned devices are appropriately monitored using SENSO. All users of the network and school-owned devices are informed about how and why they are monitored. Concerns identified through monitoring are reported to the DSL who manages the situation in line with the Child Protection and Safeguarding Policy.

### **Web Filter and Internet Provider**

Oakwood Junior School's Broadband uses the NetSweeper filtering system

### **What is filtered?**

The service filters all categories that are appropriate for DfE, KCSiE, and PREVENT duty compliance. All users and devices in school are filtered.

In-School Windows computers have the 'Netsweeper' filtering client installed, which allows the filtering system to identify which user is using the device and apply the appropriate web filtering groups according to whether or not the user is a pupil or member of staff.

In-School iPads are filtered 'transparently' and have pupil level web filtering policies applied to them. Due to the nature of the Apple iOS operating system, there is no facility for identifying which user is using an iPad with the NetSweeper filtering service.

At-home Windows devices utilise a public Schools Broadband proxy service, which allows the device to be filtered using pupil level filtering policies. This service just provides filtering and does not have the ability to provide reporting on user activity.

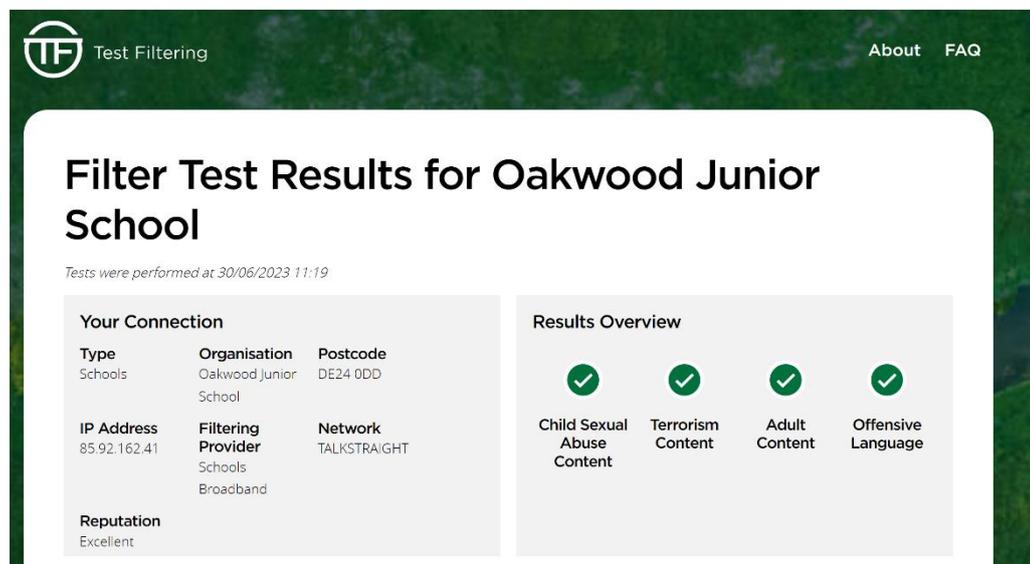

## Reporting

Daily reports for Safeguarding and Prevent are emailed to the school DSL – [head@oakwoodj.odysseyct.org.uk](mailto:head@oakwoodj.odysseyct.org.uk)

## Filtering Checks

The IT provider completes monthly filtering functionality checks using the South West Grid For Learning Test Filtering website - <http://www.testfiltering.com/>

A record of these checks is kept by the IT provider, along with an audit log of web filtering change requests.

The screenshot shows the 'Test Filtering' website interface. At the top left is the 'TF Test Filtering' logo, and at the top right are 'About' and 'FAQ' links. The main heading is 'Filter Test Results for Oakwood Junior School'. Below this, it states 'Tests were performed at 30/06/2023 11:19'. The page is divided into two main sections: 'Your Connection' and 'Results Overview'. 'Your Connection' contains a table with details about the school's connection, and 'Results Overview' shows four categories with green checkmarks indicating successful filtering.

Your Connection		
Type	Organisation	Postcode
Schools	Oakwood Junior School	DE24 0DD
IP Address	Filtering Provider	Network
85.92.162.41	Schools Broadband	TALKSTRAIGHT
Reputation		
Excellent		

Results Overview			
✓	✓	✓	✓
Child Sexual Abuse Content	Terrorism Content	Adult Content	Offensive Language

## Filtering Change Request Process

Staff are able to request that sites are blocked or unblocked via raising a case with the school IT provider. The school IT provider is then duty bound to seek approval from the school DSL, before actioning the change request. A log of the filtering change requests is kept alongside the web filter check log.

## 16. Network security

Technical security features, such as anti-virus software, are kept up-to-date and managed by ICT technicians. Firewalls are switched on at all times. Firewalls are set to auto-update based on any known or reported threats.

Staff and pupils cannot to download and install unapproved software or open unfamiliar email attachments, and are expected to report all malware and virus attacks to ICT technicians.

All members of staff have their own unique usernames and private passwords to access the school's systems. Staff members are responsible for keeping their passwords private. Passwords have a minimum and maximum length and require a mixture of letters, numbers and symbols to ensure they are as secure as possible.

Users inform ICT technicians if they forget their login details, who will arrange for the user to access the systems under different login details. Users are not permitted to share their login details with others and are not allowed to log in as another user at any time. If a user is found to be sharing their login details or

otherwise mistreating the password system, the head teacher is informed and decides the necessary action to take.

## **17.Emails**

Access to and the use of emails is managed in line with the Data Protection Policy and Acceptable Use Agreement.

Staff are given approved school email accounts and are only able to use these accounts at school and when doing school-related work outside of school hours. Prior to being authorised to use the email system, staff must agree to and sign the Acceptable Use Agreement. Personal email accounts are not permitted to be used on the school site. Any email that contains sensitive or personal information is only sent using secure and encrypted email.

Computing lessons explain what a phishing email and other malicious emails might look like and would include information on the following:

- How to determine whether an email address is legitimate
- The types of address a phishing email could use
- The importance of asking “does the email urge you to act immediately?”
- The importance of checking the spelling and grammar of an email

## **18.Social networking**

### **Personal use**

Staff and pupils are not permitted to use social media for personal use during lesson time, including wearable devices. Staff can use personal social media during break and lunchtimes using their own personal devices; however, inappropriate or excessive use of personal social media during school hours may result in the removal of internet access or further action. Staff members are advised that their conduct on social media can have an impact on their role and reputation within the school. The Staff Code of Conduct contains information on the acceptable use of social media – staff members are required to follow these expectations at all times.

Staff receive training on how to use social media safely and responsibly as part of their safeguarding training and annual updates. Staff are not permitted to communicate with pupils or parents over social networking sites and are reminded to alter their privacy settings to ensure pupils and parents are not able to contact them on social media. Where staff have an existing personal relationship with a parent or pupil, and thus are connected with them on social media, e.g. they are friends with a parent at the school, they will disclose this to the DSL and head teacher and will ensure that their social media conduct relating to that parent is appropriate for their position in the school.

Pupils are taught how to use social media safely and responsibly through the online safety curriculum. Concerns regarding the online conduct of any member of the school community on social media are reported to the DSL and managed in accordance with the relevant policy, e.g. Anti-Bullying Policy, Staff Code of Conduct and Behaviour Policy.

### **Use on behalf of the school**

The use of social media on behalf of the school is conducted in line with the Social Media Policy. The school’s official social media channels are only used for official educational or engagement purposes. Staff members must be authorised by the head teacher to access to the school’s social media accounts. All

communication on official social media channels by staff on behalf of the school is clear, transparent and open to scrutiny.

## **19. The school website**

The head teacher is responsible for the overall content of the school website – they will ensure the content is appropriate, accurate, up-to-date and meets government requirements.

The website complies with guidelines for publications including accessibility, data protection, respect for intellectual property rights, privacy policies and copyright law. Personal information relating to staff and pupils is not published on the website. Images and videos are only posted on the website when parental/carer consent has been sought.

## **20. Use of devices**

### **School-owned devices**

School-owned devices are used in accordance with the Acceptable Use Agreement. Staff and pupils are not permitted to connect school-owned devices to public Wi-Fi networks. All school-owned devices are password protected and encrypted. All school-owned devices are fitted with software to ensure they can be remotely accessed, in case data on the device needs to be protected, retrieved or erased.

ICT technicians review all school-owned devices on an annual basis, or as needed, to carry out updates and ensure there is no inappropriate material or malware on the devices. No software, apps or other programmes can be downloaded onto a device without authorisation from ICT technicians.

Cases of staff members or pupils found to be misusing school-owned devices will be managed in line with the Disciplinary Policy and Procedure and Behaviour Policy respectively.

### **Personal devices**

Personal devices are used in accordance with the Acceptable Use Agreement. Any personal electronic device that is brought into school is the responsibility of the user.

Staff members are not permitted to use their personal devices during lesson time, other than in an emergency at the discretion of the head teacher. Staff members are not permitted to use their personal devices to take photos or videos of pupils.

Staff members report concerns about their colleagues' use of personal devices on the school premises in line with the Allegations of Abuse Against Staff Policy. If a member of staff is thought to have illegal content saved or stored on a personal device, or to have committed an offence using a personal device, the head teacher will inform the police and action will be taken in line with the Allegations of Abuse Against Staff Policy.

Pupils are not permitted to use personal or wearable devices at school. If they do bring a device into school, a parent/carer must complete a form and pupils must hand their device to the teacher at the start of the day.

Where a pupil uses accessibility features on a personal device to help them access education, e.g. where a pupil who is deaf uses their mobile phone to adjust the settings on an internal hearing aid in response to audible stimuli during class, the arrangements and rules for conduct for this are developed and managed on a case-by-case basis.

Pupils' devices can be searched, screened and confiscated in accordance with the Searching, Screening and Confiscation Policy. If a staff member reasonably believes a pupil's personal device has been used to commit an offence or may provide evidence relating to an offence, the device will be handed to the police.

## **21.Remote learning**

The school will risk assess the technology used for remote learning prior to use and ensure that there are no privacy issues or scope for inappropriate use. The school will consult with parents prior to the period of remote learning about what methods of delivering remote teaching are most suitable – alternate arrangements will be made where necessary.

The school will ensure that all school-owned equipment and technology used for remote learning has suitable anti-virus software installed, can establish secure connections, can recover lost work, and allows for audio and visual material to be recorded or downloaded, where required.

During the period of remote learning, the school will maintain regular contact with parents to:

- Reinforce the importance of children staying safe online.
- Ensure parents are aware of what their children are being asked to do, e.g. sites they have been asked to use and staff they will interact with.
- Encourage them to set age-appropriate parental controls on devices and internet filters to block malicious websites.

The school will not be responsible for providing access to the internet off the school premises and will not be responsible for providing online safety software, e.g. anti-virus software, on devices not owned by the school.

## **22.Monitoring and review**

The school recognises that the online world is constantly changing; therefore, the DSL, ICT technicians and the head teacher conduct ongoing light-touch reviews of this policy to evaluate its effectiveness. The governing board, head teacher and DSL review this policy in full on an annual basis and following any online safety incidents.

Any changes made to this policy are communicated to all members of the school community.

## Appendix A

### Online harms and risks – curriculum coverage

Subject area	Description and teaching content	Curriculum area the harm or risk is covered in
<b>How to navigate the internet and manage information</b>		
Age restrictions	<p>Some online activities have age restrictions because they include content which is not appropriate for children under a specific age. Teaching includes the following:</p> <ul style="list-style-type: none"> <li>• That age verification exists and why some online platforms ask users to verify their age</li> <li>• Why age restrictions exist</li> <li>• That content that requires age verification can be damaging to under-age consumers</li> <li>• What the age of digital consent is (13 for most platforms) and why it is important</li> </ul>	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> <li>• Health education</li> <li>• Computing</li> <li>• PSHE</li> </ul>
How content can be used and shared	<p>Knowing what happens to information, comments or images that are put online. Teaching includes the following:</p> <ul style="list-style-type: none"> <li>• What a digital footprint is, how it develops and how it can affect pupils' futures, including reputational damage</li> <li>• How cookies work</li> <li>• How content can be shared, tagged and traced</li> <li>• How difficult it is to remove something once it has been shared online</li> <li>• What is illegal online, e.g. youth-produced sexual imagery (sexting)</li> </ul>	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> <li>• Relationships education</li> <li>• Computing</li> <li>• PSHE</li> </ul>
Disinformation, misinformation and hoaxes	<p>Some information shared online is accidentally or intentionally wrong, misleading or exaggerated. Teaching includes the following:</p> <ul style="list-style-type: none"> <li>• Disinformation and why individuals or groups choose to share false information in order to deliberately deceive</li> <li>• Misinformation and being aware that false and misleading information can be shared inadvertently</li> <li>• Online hoaxes, which can be deliberately and inadvertently spread for a variety of reasons</li> <li>• That the widespread nature of this sort of content can often appear to be a stamp of authenticity, making it important to evaluate what is seen online</li> <li>• How to measure and check authenticity online</li> <li>• The potential consequences of sharing information that may not be true</li> </ul>	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> <li>• Relationships and health education</li> <li>• Computing</li> <li>• PSHE</li> </ul>
Fake websites and scam emails	<p>Fake websites and scam emails are used to extort data, money, images and other things that can either be used by the scammer to harm the person targeted or sold on for financial, or other, gain. Teaching includes the following:</p> <ul style="list-style-type: none"> <li>• How to recognise fake URLs and websites</li> <li>• What secure markings on websites are and how to assess the sources of emails</li> </ul>	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> <li>• Relationships education</li> <li>• Computing</li> <li>• PSHE</li> </ul>

	<ul style="list-style-type: none"> <li>• The risks of entering information to a website which is not secure</li> <li>• What pupils should do if they are harmed, targeted, or groomed as a result of interacting with a fake website or scam email</li> <li>• Who pupils should go to for support</li> </ul>	
Online fraud	<p>Fraud can take place online and can have serious consequences for individuals and organisations. Teaching includes the following:</p> <ul style="list-style-type: none"> <li>• What identity fraud, scams and phishing are</li> <li>• That children are sometimes targeted to access adults' data</li> <li>• What 'good' companies will and will not do when it comes to personal details</li> </ul>	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> <li>• Relationships education</li> <li>• Computing</li> <li>• PSHE</li> </ul>
Password phishing	<p>Password phishing is the process by which people try to find out individuals' passwords so they can access protected content. Teaching includes the following:</p> <ul style="list-style-type: none"> <li>• Why passwords are important, how to keep them safe and that others might try to get people to reveal them</li> <li>• How to recognise phishing scams</li> <li>• The importance of online security to protect against viruses that are designed to gain access to password information</li> <li>• What to do when a password is compromised or thought to be compromised</li> </ul>	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> <li>• Relationships education</li> <li>• Computing</li> <li>• PSHE</li> </ul>
Personal data	<p>Online platforms and search engines gather personal data – this is often referred to as 'harvesting' or 'farming'. Teaching includes the following:</p> <ul style="list-style-type: none"> <li>• How cookies work</li> <li>• How data is farmed from sources which look neutral</li> <li>• How and why personal data is shared by online companies</li> <li>• How pupils can protect themselves and that acting quickly is essential when something happens</li> <li>• The rights children have with regards to their data</li> <li>• How to limit the data companies can gather</li> </ul>	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> <li>• Relationships education</li> <li>• Computing</li> <li>• PSHE</li> </ul>
Persuasive design	<p>Many devices, apps and games are designed to keep users online for longer than they might have planned or desired. Teaching includes the following:</p> <ul style="list-style-type: none"> <li>• That the majority of games and platforms are designed to make money, and that their primary driver is to encourage people to stay online for as long as possible</li> <li>• How notifications are used to pull users back online</li> </ul>	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> <li>• Relationships education</li> <li>• Computing</li> <li>• PSHE</li> </ul>
Privacy settings	<p>Almost all devices, websites, apps and other online services come with privacy settings that can be used to control what is shared. Teaching includes the following:</p> <ul style="list-style-type: none"> <li>☒ How to find information about privacy settings on various devices and platforms</li> </ul>	<p>This risk or harm is covered in the following curriculum areas:</p>

	<p>☒ That privacy settings have limitations</p>	<ul style="list-style-type: none"> <li>Relationships education</li> <li>Computing</li> <li>PSHE</li> </ul>
Targeting of online content	<p>Much of the information seen online is a result of some form of targeting. Teaching includes the following:</p> <ul style="list-style-type: none"> <li>How adverts seen at the top of online searches and social media have often come from companies paying to be on there and different people will see different adverts</li> <li>How the targeting is done</li> <li>The concept of clickbait and how companies can use it to draw people to their sites and services</li> </ul>	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> <li>Relationships education</li> <li>Computing</li> <li>PSHE</li> </ul>
<b>How to stay safe online</b>		
Online abuse	<p>Some online behaviours are abusive. They are negative in nature, potentially harmful and, in some cases, can be illegal. Teaching includes the following:</p> <ul style="list-style-type: none"> <li>The types of online abuse, including sexual harassment, bullying, trolling and intimidation</li> <li>When online abuse can become illegal</li> <li>How to respond to online abuse and how to access support</li> <li>How to respond when the abuse is anonymous</li> <li>The potential implications of online abuse</li> <li>What acceptable and unacceptable online behaviours look like</li> </ul>	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> <li>Relationships education</li> <li>Computing</li> <li>PSHE</li> </ul>
Challenges	<p>Online challenges acquire mass followings and encourage others to take part in what they suggest. Teaching includes the following:</p> <ul style="list-style-type: none"> <li>What an online challenge is and that, while some will be fun and harmless, others may be dangerous and even illegal</li> <li>How to assess if the challenge is safe or potentially harmful, including considering who has generated the challenge and why</li> <li>That it is okay to say no and to not take part in a challenge</li> <li>How and where to go for help</li> <li>The importance of telling an adult about challenges which include threats or secrecy, such as 'chain letter' style challenges</li> </ul>	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> <li>Relationships education</li> <li>Computing</li> <li>PSHE</li> </ul>
Content which incites violence	<p>Knowing that violence can be incited online and escalate very quickly into offline violence. Teaching includes the following:</p> <ul style="list-style-type: none"> <li>That online content (sometimes gang related) can glamorise the possession of weapons and drugs</li> <li>That to intentionally encourage or assist in an offence is also a criminal offence</li> <li>How and where to get help if they are worried about involvement in violence</li> </ul>	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> <li>Relationships education</li> <li>Computing</li> <li>PSHE</li> </ul>

Fake profiles	<p>Not everyone online is who they say they are. Teaching includes the following:</p> <ul style="list-style-type: none"> <li>• That, in some cases, profiles may be people posing as someone they are not or may be ‘bots’</li> <li>• How to look out for fake profiles</li> </ul>	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> <li>• Relationships education</li> <li>• Computing</li> <li>• PSHE</li> </ul>
Grooming	<p>Knowing about the different types of grooming and motivations for it, e.g. radicalisation, child sexual abuse and exploitation, and gangs and county lines. Teaching includes the following:</p> <ul style="list-style-type: none"> <li>• Boundaries in friendships with peers, in families, and with others</li> <li>• Key indicators of grooming behaviour</li> <li>• The importance of disengaging from contact with suspected grooming and telling a trusted adult</li> <li>• How and where to report grooming both in school and to the police</li> </ul> <p>At all stages, it is important to balance teaching pupils about making sensible decisions to stay safe whilst being clear it is never the fault of the child who is abused and why victim blaming is always wrong.</p>	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> <li>• Relationships education</li> <li>• Computing</li> <li>• PSHE</li> </ul>
Livestreaming	<p>Livestreaming (showing a video of yourself in real-time online, either privately or to a public audience) can be popular with children, but it carries a risk when carrying out and watching it. Teaching includes the following:</p> <ul style="list-style-type: none"> <li>• What the risks of carrying out livestreaming are, e.g. the potential for people to record livestreams and share the content</li> <li>• The importance of thinking carefully about who the audience might be and if pupils would be comfortable with whatever they are streaming being shared widely</li> <li>• That online behaviours should mirror offline behaviours and that this should be considered when making a livestream</li> <li>• That pupils should not feel pressured to do something online that they would not do offline</li> <li>• Why people sometimes do and say things online that they would never consider appropriate offline</li> <li>• The risk of watching videos that are being livestreamed, e.g. there is no way of knowing what will be shown next </li> </ul> <p>The risks of grooming</p>	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> <li>• Relationships education</li> <li>• Computing</li> <li>• PSHE</li> </ul>
Pornography (Age appropriate)	<p>Knowing that sexually explicit material presents a distorted picture of sexual behaviours. Teaching includes the following:</p> <ul style="list-style-type: none"> <li>• That pornography is not an accurate portrayal of adult sexual relationships</li> <li>• That viewing pornography can lead to skewed beliefs about sex and, in some circumstances, can normalise violent sexual behaviour</li> </ul>	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> <li>• Relationships education</li> <li>• Computing</li> <li>• PSHE</li> </ul>

Unsafe communication	<p>Knowing different strategies for staying safe when communicating with others, especially people they do not know or have not met. Teaching includes the following:</p> <ul style="list-style-type: none"> <li>• That communicating safely online and protecting your privacy and data is important, regardless of who you are communicating with</li> <li>• How to identify indicators of risk and unsafe communications</li> <li>• The risks associated with giving out addresses, phone numbers or email addresses to people pupils do not know, or arranging to meet someone they have not met before</li> <li>• What online consent is and how to develop strategies to confidently say no to both friends and strangers online</li> </ul>	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> <li>• Relationships education</li> <li>• Computing</li> <li>• PSHE</li> </ul>
<b>Wellbeing</b>		
Impact on confidence (including body confidence)	<p>Knowing about the impact of comparisons to ‘unrealistic’ online images. Teaching includes the following:</p> <ul style="list-style-type: none"> <li>• The issue of using image filters and digital enhancement</li> <li>• The role of social media influencers, including that they are paid to influence the behaviour of their followers</li> <li>• The issue of photo manipulation, including why people do it and how to look out for it</li> </ul>	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> <li>• Relationships education</li> <li>• Computing</li> <li>• PSHE</li> </ul>
Impact on quality of life, physical and mental health and relationships	<p>Knowing how to identify when online behaviours stop being fun and begin to create anxiety, including that there needs to be a balance between time spent online and offline. Teaching includes the following:</p> <ul style="list-style-type: none"> <li>• How to evaluate critically what pupils are doing online, why they are doing it and for how long (screen time)</li> <li>• How to consider quality vs. quantity of online activity</li> <li>• The need for pupils to consider if they are actually enjoying being online or just doing it out of habit, due to peer pressure or due to the fear or missing out</li> <li>• That time spent online gives users less time to do other activities, which can lead some users to become physically inactive</li> <li>• The impact that excessive social media usage can have on levels of anxiety, depression and other mental health issues</li> <li>• That isolation and loneliness can affect pupils and that it is very important for them to discuss their feelings with an adult and seek support</li> <li>• Where to get help</li> </ul>	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> <li>• Relationships education</li> <li>• Computing</li> <li>• PSHE</li> </ul>
Online vs. offline behaviours	<p>People can often behave differently online to how they would act face to face. Teaching includes the following:</p> <ul style="list-style-type: none"> <li>☒ How and why people can often portray an exaggerated picture of their lives (especially online) and how that</li> </ul>	<p>This risk or harm is covered in the following curriculum areas:</p>
	<ul style="list-style-type: none"> <li>can lead to pressures around having perfect or curated lives</li> <li>☒ How and why people are unkind or hurtful online when they would not necessarily be unkind to someone face to face</li> </ul>	<ul style="list-style-type: none"> <li>• Relationships education</li> <li>• Computing</li> <li>• PSHE</li> </ul>

Reputational damage	<p>What users post can affect future career opportunities and relationships – both positively and negatively. Teaching includes the following:</p> <ul style="list-style-type: none"> <li>• Strategies for positive use</li> <li>• How to build a professional online profile</li> </ul>	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> <li>• Relationships education</li> <li>• Computing</li> <li>• PSHE</li> </ul>
Suicide, selfharm and eating disorders	<p>Pupils may raise topics including eating disorders, self-harm and suicide. Teachers must be aware of the risks of encouraging or making these seem a more viable option for pupils and should take care to avoid giving instructions or methods and avoid using language, videos and images.</p>	

## Appendix B

### Acceptable Use Agreement - Pupils

#### These statements can keep me and others safe & happy at school and home

1. ***I learn online*** – I use the school’s internet, devices and logins for schoolwork, homework and other activities to learn and have fun. I know that all school devices and systems are monitored, including when I’m using them at home.
2. ***I ask permission*** – At home or school, I only use the devices, apps, sites and games I am allowed to and when I am allowed to.
3. ***I am a friend online*** – I won’t share or say anything that I know would upset another person or they wouldn’t want shared. If a friend is worried or needs help, I remind them to talk to an adult, or even do it for them.
4. ***I am a secure online learner*** – I keep my passwords to myself and reset them if anyone finds them out. Friends don’t share passwords!
5. ***I am careful what I click on*** – I don’t click on unexpected links or popups, and only download or install things when I know it is safe or has been agreed by trusted adults. Sometimes app add-ons can cost money, so it is important I always check.
6. ***I ask for help if I am scared or worried*** – I will talk to a trusted adult if anything upsets me or worries me on an app, site or game – it often helps. If I get a funny feeling, I talk about it.
7. ***I know new online friends might not be who they say they are*** – I am careful when someone wants to be my friend. Unless I have met them face to face, I can’t be sure who they are.
8. ***I keep my body to myself online*** – I never get changed or show what’s under my clothes when using a device with a camera. I remember my body is mine and no-one should tell me what to do with it; I don’t send any photos or videos without checking with a trusted adult.
9. ***I say no online if I need to*** – I don’t have to do something just because someone dares or challenges me to do it, or to keep a secret. If I get asked anything that makes me worried, upset or just confused, I should say no, stop chatting and tell a trusted adult immediately.
10. ***I tell my parents/carers what I do online*** – they might not know the app, site or game, but they can still help me when things go wrong, and they want to know what I’m doing.
11. ***I follow age rules*** – 13+ games and apps aren’t good for me so I don’t use them – they may be scary, violent or unsuitable. 18+ games are not more difficult but very unsuitable.
12. ***I am private online*** – I always check with a trusted adult if it’s ok to share personal information. This might be my address, phone number, location or anything else that could identify me or my family and friends.
13. ***I am careful what I share and protect my online reputation*** – I know anything I do can be shared and might stay online forever (even on Snapchat or if I delete it).
14. ***I am a rule-follower online*** – I know that apps, sites and games have rules on how to behave, and some have age restrictions. I follow the rules, block bullies and report bad behaviour, at home and at school.
15. ***I respect people’s work*** – I only edit or delete my own digital work and only use words, pictures or videos from other people if I have their permission or if it is copyright free or has a Creative Commons licence.

16. *I am a researcher online* – I use safe search tools approved by my trusted adults. I know I can't believe everything I see online, know which sites to trust, and know how to double check information I find. If I am not sure I ask a trusted adult.

~~~~~

**I have read and understood this agreement.**

**If I have any questions, I will speak to a trusted adult at school or home.**

## Appendix C

### Acceptable Use Agreement for Staff, Governors and Volunteers

1. I have read and understood Oakwood Junior School's full Online Safety policy and agree to uphold the spirit and letter of the approaches outlined there, both for my behaviour as an adult and enforcing the rules for pupils.
2. I understand that online safety falls under the whole-school safeguarding approach. I will report any online-safety related concerns, or behaviour which I believe may be inappropriate to the Designated Safeguarding Lead (Mrs Atwal), in line with the Safeguarding Policy.
3. I understand the responsibilities listed for my role in the school's Online Safety policy. This includes promoting online safety as part of a whole-school approach in line with the Computing, PSHE and RSHE curriculum.
4. I understand that school systems and users are protected by security, monitoring and filtering services, and that my use of school devices, systems and logins on my own devices and at home (regardless of time, location or connection), including encrypted content, can be monitored/captured/viewed by the relevant authorised staff members.
5. I will never use school devices and networks/internet/platforms/other technologies to access material that is illegal or in any way inappropriate (including that of an extremist or offensive nature) for an education setting. I will not attempt to bypass security or monitoring and will look after devices loaned to me.
6. I agree to adhere to all provisions of the school Data Protection Policy at all times. I will protect my passwords/logins and other access, never share credentials and immediately change passwords and notify the IT technicians if I suspect a breach.
7. I understand that I am a role model and will promote positive online safety and model safe, responsible and positive behaviours in my own use of technology, including social media, as outlined in the Staff Code of Conduct.

I have read, understood and agreed to this agreement. I understand that it is my responsibility to ensure I remain up to date and read and understand the school's most recent online safety / safeguarding policies.

## Bring Your Own Device Considerations

Oakwood Junior School recognises that many staff, governors and volunteers (with permission) choose to access school information from their own devices.

Anyone wishing to do this must be aware that they have a direct personal responsibility for ensuring that the device they choose to use has the benefit of encryption that is above and beyond a simple password protection.

Users must ensure that personal devices such as mobile smart phones, tablets and other portable electronic equipment are set to lock and only open with encrypted passcodes to prevent unauthorised access.

School will support and enable approved users to ensure that their devices are compliant.

**If any member of staff uses a device without these safeguards in place it will be a disciplinary breach if data is unlawfully accessed by a third party. Other users will be subject to investigation and possible criminal proceedings.**

Encryption protection will be available for staff / other users and suitable advice provided.

### **Own Device Usage Acceptance**

I understand and accept that should I choose to access school data on any personal device that I use or own must have, and use, suitable encryption to secure the data. Any unlawful access of data on such a device will be my responsibility. I will report any theft or loss to the Headteacher / School Business Manager / Office Manager as soon as is practicable.

When exchanging, gifting, upgrading or selling the device I shall ensure that access to any school data is removed and data that relates to school is securely deleted.

On termination of my employment, volunteer position or student placement at the school I will ensure that any school data is appropriately deleted from all devices.
